MY JOB

I am currently working as a Technical Project Manager (TPM) in Crédit Agricole Group Solutions, managing a 4 million project on the new [mobile App](#).

My favorite part of the job is finding the best solution for the client and seeking the **most suitable methodology** and adapt it to the characteristics of the project, with a flexible approach.

As a TPM, I deal with the client in **all stages** of the service, even before a budget is established and a project is created.

After the project starts, I:

- Manage the project budget and timeline;
- Review technical documentation and architectural decisions;
- Provide direction to external consultants/developers and monitor their progress;
- Provide usability feedback due to platform restrictions;
- Support external consultants with the integration of the legacy systems.

LANGUAGES

- Italian (native speaker)
- English (fluent)

EXPERIENCE

2020 → TECHNICAL PROJECT MANAGER

- **Crédit Agricole Group Solutions S.C.p.A.** <https://www.credit-agricole.it>

- **Project:** Crédit Agricole Italia App Hub – **Budget:** 4 million.

Objectives:

- Build the new Banking App (React Native);
- Build the new infrastructure to support the app (Kubernetes);
- Build the new DevOps Toolchain (Azure, Jenkins);
- Integrate the new Agile approach (Azure DevOps).

700k Active monthly users (+70% from the old App), In September 2021 more than 80% of all digital bank transactions were from the mobile App (+40% YoY), ~4.5 ★ App store rating

2017 – 2020 TECHNICAL PROJECT MANAGER Sysdata S.p.a. <https://www.sysdata.it/en/>

- **Project:** **BPER Robot4Advisory** – A new tool made for the Financial Advisor of Bper Bank.
Objective: to integrate the Blackrock's Aladdin software with the current Custom CRM. Components: ETL Java 1.8, MongoDB, MS SQL, Kafka, Angular. The BE and FE are hosted on a Pivotal Private Cloud.
Role: Manager of the software development team during all the phases of the project (expected 12 months).
- **Project:** **Allianz X-News** – A B2B corporate news platform. It's used by Allianz Insurance to communicate the strategic vision of the group to all the agencies on the Italian territory.
Components: Android and iOS hybrid application (Ionic 4), Backend-For-Frontend (Spring Boot and Spark, Maven, MySQL, Redis), a heavily customized Wordpress (in headless mode) and a website (Angular 7). The BE and FE are hosted on a Pivotal Private Cloud and the CMS on premise.
Role: Manager of the software development team during all the phases of the project (~8 months).
- **Project:** **Unicredit My Care Famiglia** – Unicredit My Care Famiglia is a B2C Insurance mobile application. It's used by Unicredit's clients to manage their insurance policy and access their IoT devices (home sensors and cameras).

2017 TECHNICAL PROJECT MANAGER GetConnected srl <https://www.getconnected.it>

- **Project:** **Beghelli Brain** – Beghelli is one of the biggest Italian metalworking company that operates in the field of electrical low voltage equipment used for residential, employment and production. The Beghelli's Brain Project was the first IoT project of the company, which tries to enter the home security and domotic market. The developed mobile application (Cordova) works both as an installation tool for the seller and as control center for the user. Behind the Cordova app there was the BE managed by the IoT hardware provider.
Role: Manager of the software development team during all the phases of the project (~6 months).
